

The background image shows a large, leafy tree on the left side of the frame, its branches spreading out. In the background, several modern high-rise buildings are visible against a clear blue sky. The building on the right is particularly prominent, featuring a glass facade that reflects the sky. The foreground is a green lawn with some smaller trees and a paved path on the right.

Saga

A small solution for big data

“

We are at the cusp of a big data boom, but behind others that use it for transforming government,”

-Francis Del Val, President of Cobena Analytics & Business Strategy

How do we
capitalize in this
age of big data?

SAGA

Data redefined

Introducing...

What is Saga?

Saga is a user-friendly, real-time dashboard for government sanctioned statistics that filters through all available information to give you the data you care about.

Saga aims to...

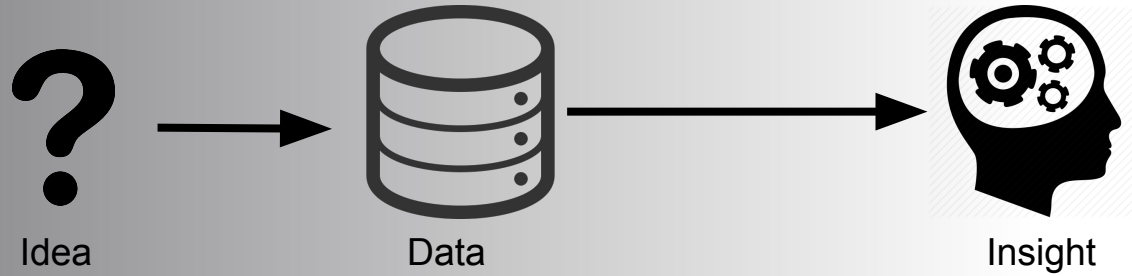

Increase the level of awareness and interest in national developments among a wider audience

Provide a relevant repository of information to every user

Reinforce the need for accountability and transparency between gov't institutions and people

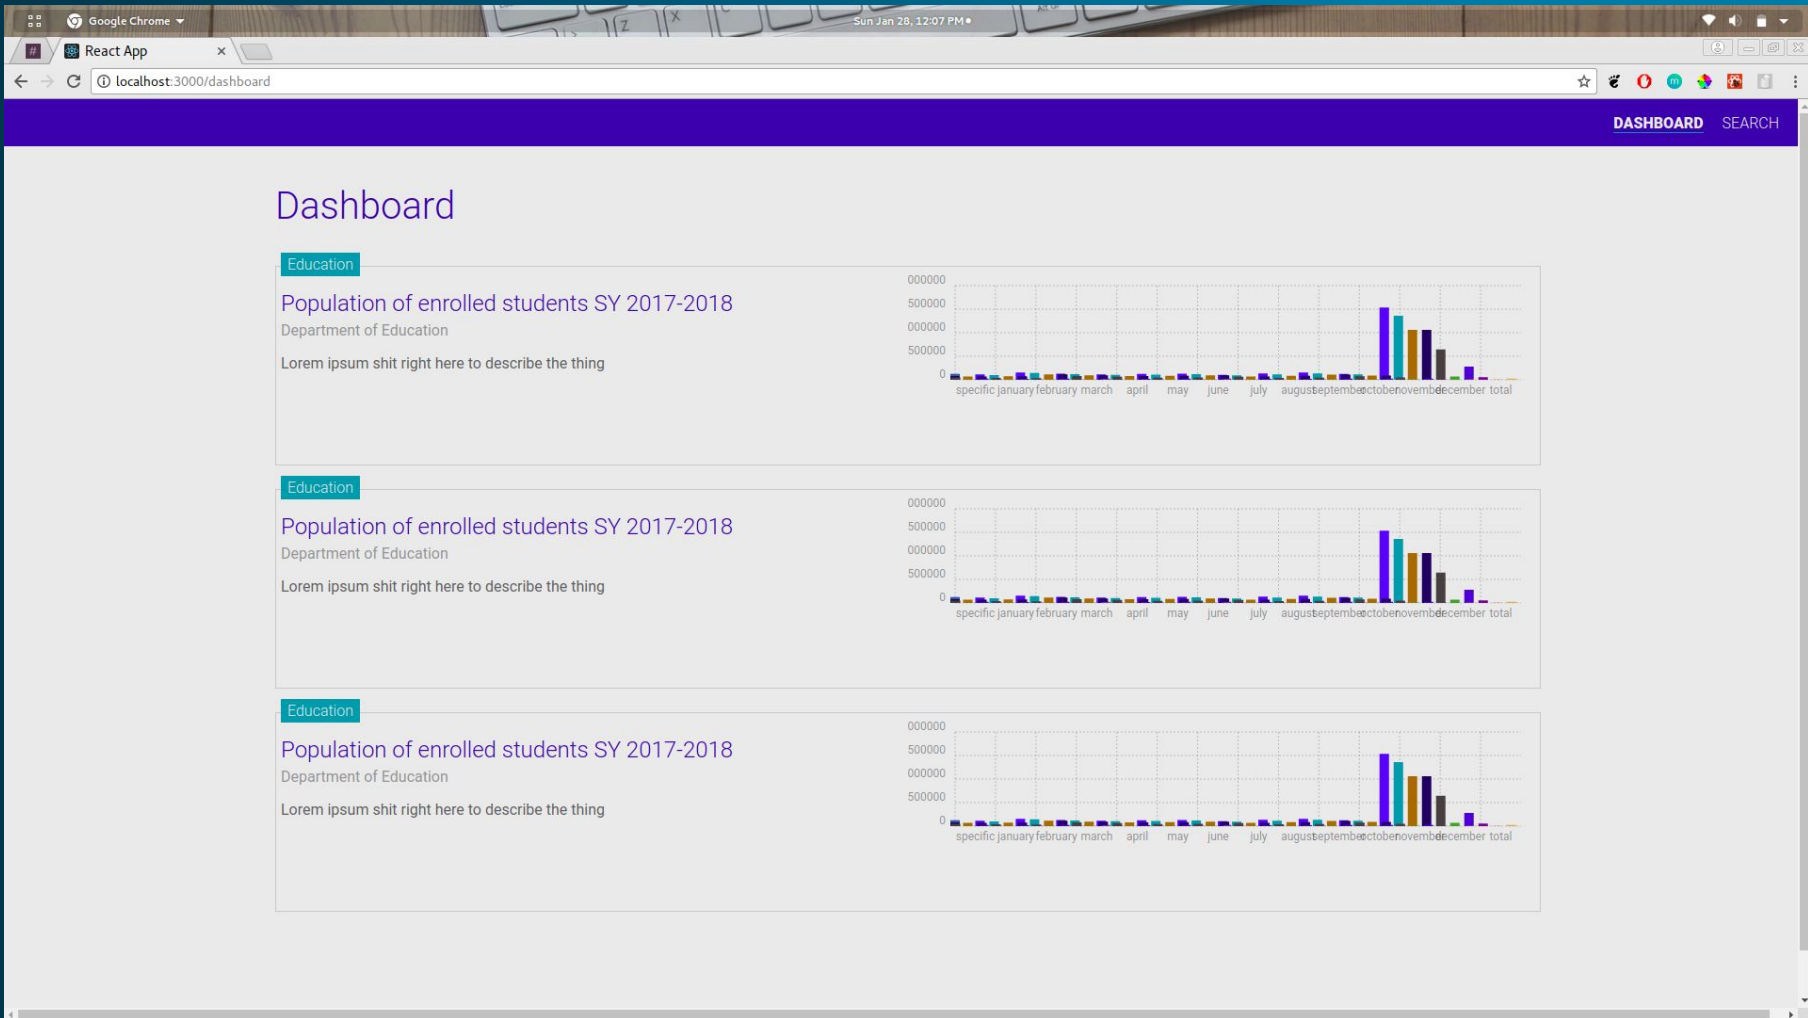

The Current Data-Gathering Process

The Process with Saga
